The tasks were purpose written using E-Prime software (Schneider, Eschmann, & Zuccolotto, 2002). The experiment was run in a darkened testing cubicle on a PC running E-Prime (Schneider et al., 2002). Stimuli were generated using an online E-Prime script. The pseudoword tasks were programmed in E-prime (Schneider, Eschman, & Zuccolotto, 2002). E-Prime: A User’s Guide - Schneider, Eshman, et al. - 2002 (Show Context).
The experimental procedure was controlled using E-Prime (Schneider, Eschman, & Zuccolotto, 2002).
